

# Lingo IT

## LEADING PROCESS-DRIVEN SOFTWARE SOLUTIONS PROVIDER

LINGO is a leading process-driven software solutions provider, specializing in customized (bespoke) solutions.

We have been supplying high-quality software development and systems integration services from many years. Our key focus is to deliver state-of-the-art programming services much to the customer satisfaction. Keeping in mind of the requirements of the clients and market trends, we provide high quality analysis, design and programming services.

We offer programming, design, and consulting services to a wide range of industries and business areas. We can work on any of your projects up to your satisfaction level from a mere concept to the final product as per our long and continuous work collaboration with you. Through analyzing business needs, industry and product requirements, we deliver tailored cost – competitive, scalable and robust solutions. We can easily develop and manage programming services that are affordable, user-friendly and completely customizable.

# flexible IT solutions for your business needs

## TECHNOLOGIES

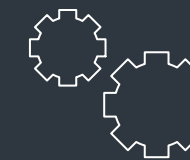

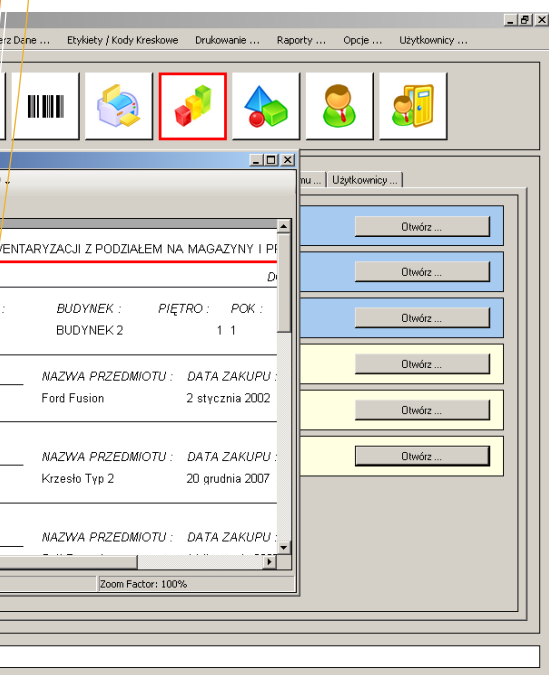

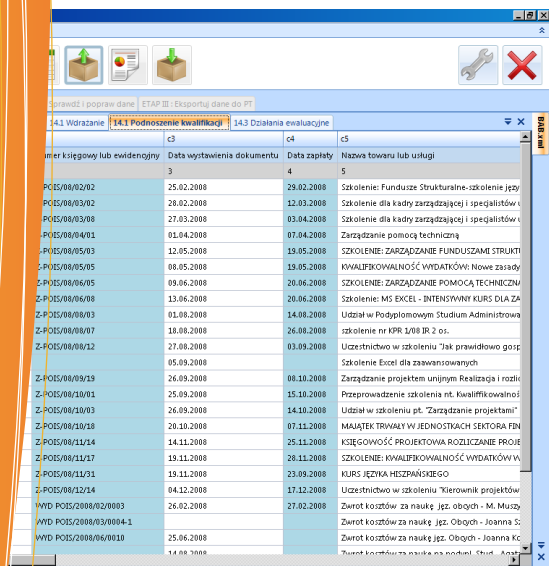

Up to now we have focused on planning, design and development of applications based on Microsoft Technologies (.NET platform, particularly C#/VB.NET, ASP.NET and database technologies as MS SQL Server) and open source Sun Microsystems technologies (JAVA SE/ME/EE, EJB3, Spring, JSF, GWT, ReachFaces, FLEX).

We also have considerable expertise in website development and web applications development (HTML/XHTML, CSS, PHP, PHP5, JavaScript, AJAX, Flash, MySQL, PostgreSQL)

Our software developers have experience and knowledge required to develop solutions that provide speed, security and reliability that improve the productivity and efficiency in all aspects of clients activity.
